Dear Bowler,

You have expressed an interest in becoming a qualified marker and I enclose an application form for the 2017 Course.

It would be very helpful if you could return the application form either by email or by post, as soon as possible, so that we can get you started with the warmup. Please send your cheque (made payable to 'Association of Surrey Bowls Coaches') to David Lokkerbol at the above address.

At the course there will be hand-outs which can be taken back to your clubs in an attempt to improve the general standard of marking at clubs throughout the county.

Once your application form is received you will be sent, by email, a Questionnaire which needs to be filled in and returned before the course (**before April 1st**). This will be assessed and discussed (as necessary). It is essential for markers to know what is in the Law Book and the Questionnaire certainly gets you to "know your law book".

During the practical course, an exam will have about 20 questions relating to the laws (specifically about marking) so that an assessment can be made of your understanding of the laws.

The first days of the course will be coaching/learning/practice days when the three elements of marking will be demonstrated and taught:-

- • Measuring
- • Laws
- • Practical aspects of Marking including time management

The fourth day will be examination day and you will be given a time for your exam.

Candidates who have attended previous courses (particularly those updating their certificates) may not need to attend all three days before the exam.
